MEERA BILL, MERI MARZI!

Slash Your Electric Bills This Summer with JWM Wares' Bill Assurance Toolkit

For countless homes and businesses across Pakistan, the arrival of the summer electricity bill brings a familiar wave of stress. While the soaring temperatures outside have made air conditioning a necessity, turning your AC on seems to cool everything except your pocket!

That's where JWM Wares steps in. Our "Mera Bill, Meri Marzi" energy bill management solution puts you in full control—whether you're managing a home, office, hospital, school, or industrial facility. Say goodbye to your bill anxiety and hello to intelligent, flexible energy usage.

No more bill shocks. No more guesswork. Just control.

With the "Mera Bill, Meri Marzi" solution, simply set your target electricity budget for the month—then let us handle the rest. Our system is designed to monitor your site's real-time energy usage, analyze your consumption patterns, and optimize your energy distribution. As the system learns more about your usage habits, it will intelligently adjust the daily energy allocation for high-demand appliances like your AC, allowing you to stay within your target monthly budget with ease.

Key benefits of the "Mera Bill, Meri Marzi" solution:

- Automatic budgeting based on real-time energy consumption
- Intelligent alerts & control mechanisms to prevent overuse and enforce budgets
- Clear analytics dashboards that show you how, when, and where your energy's being used
- Track peak energy demand at a glance
- Monitor load shedding to optimize energy management
- Check your current billing status on the Enbryx mobile app—so that you're never caught by surprise again!

With accurate insights and meaningful data, JWM Wares gives you the clarity and confidence to make wiser energy decisions. Total control over your electricity bill is finally in your hands.

And the best part? It's perhaps the most cost-effective energy investment you've ever made!

Manage Your Energy Like a Pro—Right from Your Smartphone

With the Enbryx mobile app, you'll gain full access to the bill assurance tool suite. The app allows you to:

- Set and track your monthly and yearly bill targets
- Monitor the live energy consumption of each of your appliances
- Receive alerts when your energy usage starts exceeding your budget
- Enable controls that enforce your set budgets
- Review historical consumption trends and track your system's performance

Whether you're running a home or managing a business, the Enbryx app puts full energy control right into the palm of your hands. Download and start saving today!

The Enbryx app  is available for download on both the Apple App Store and on Google Play.
